

Notice of Public Information Centre No. 2

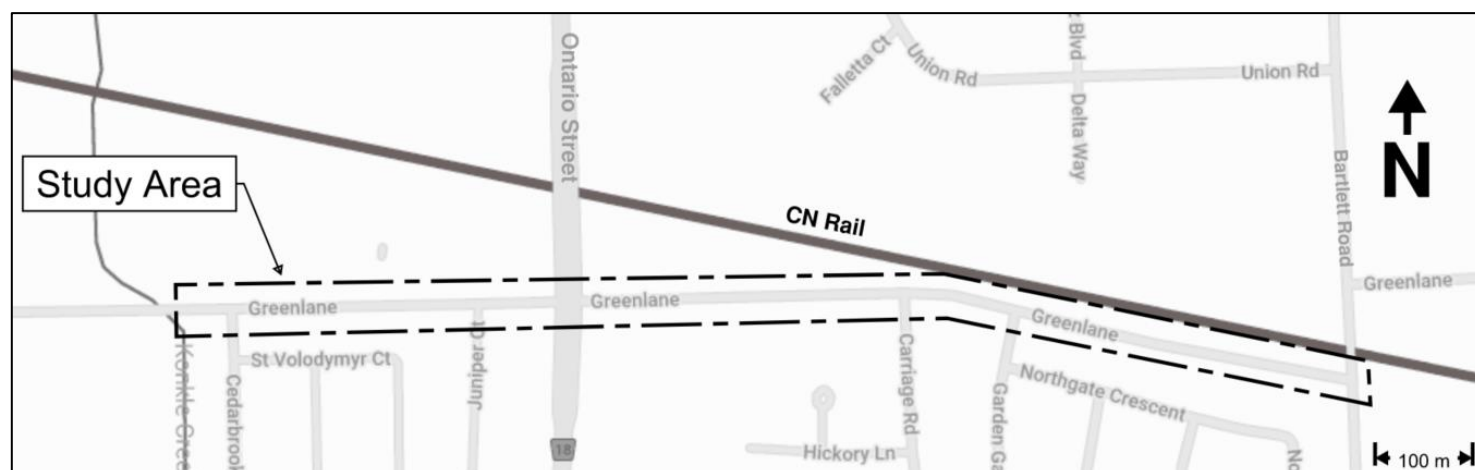

Greenlane Road (Phase 2 and 3)

Schedule C Municipal Class Environmental Assessment Study

THE STUDY

The Town of Lincoln is undertaking a Schedule ‘C’ Municipal Class Environmental Assessment (MCEA) of Greenlane Road between the west urban boundary limit (Konkle Creek Trail) and Bartlett Road. Due to the poor condition of the roadway, the opening of the new West Niagara Secondary School on King Street, the future GO Station on Ontario Street, and a predicted increase in vehicle volumes from development growth in the area, this corridor has been identified as high priority for road reconstruction and cross-section improvements.

The study is being undertaken to consider cross-section improvements, including active transportation improvements, streetscaping opportunities and roadway widening to address the above-noted concerns.

You Are Invited To Participate!

The project team is hosting **Public Information Centre #2** to provide an update on study progress including community feedback received to date, an assessment of the design alternatives developed from the preferred solution shown at Public Information Centre #1, the identification of the preliminary preferred design concept, and next steps. This event will be held in person in a ‘drop-in’ format with project team members available to discuss the project and assist with any questions or comments.

Date: Thursday, January 30, 2025
Time: 5:30 p.m. to 7:30 p.m.
Location: Fleming Memorial Arena
 5020 Serena Dr. Beamsville
 Ontario L0R 1B8
Format: In-Person Event

The information materials related to Public Information Centre #2 will also be posted on the project webpage (<https://speakuplincoln.ca/greenlane-phases2-3>) on the day of the event, and questions on the PIC #2 materials can be submitted through the webpage until **February 15, 2025**.

Stay Connected!

If you wish to have your name added to the project mailing list or have any comments, questions, or concerns about the study, please contact one of the following Project Team members:
